

Boost Employee Engagement with PI Diagnose

Overview

Traditional employee engagement surveys fall short in driving meaningful improvements. They lack actionable insights to address the core drivers of disengagement, e.g., job fit, manager effectiveness, culture, and team dynamics.

This workshop will provide comprehensive approaches to boost engagement. You'll see how to leverage actionable data to tackle root causes and build a more motivated and productive workforce.

Learnings

After attending, participants will be able to:

- Pinpoint core disengagement factors
- Remove blockers and drive goals
- Create data-backed action plans

Format

This half-day workshop is delivered in person or virtually by expert facilitators.

Audience

- Executives
- HR Leaders

***Avoid the pitfalls of disengagement.
Create the culture you envision.***
